This book is homage to our grandmothers
Onița & Aurelia.

Onița (Ioana-Lavinia`s grandma)
Aurelia (Gabriela-Mihaela`s grandma)

INTRODUCTION

When we started this work we were guided by Confucius': *I hear and forget. I see and I remember. I do and I understand.*

The book titled *Business performances in the pandemic context. Part I. Brief financial analysis on the Romanian big companies* was designed as a guide for financial market players and prepared in such a way as to ensure a systematic treatment of financial statements published by companies listed on the Bucharest Stock Exchange. Our book can be seen as a monograph for companies in the regulated market, in the context of the pandemic caused by SARS-COV-2 and against the background of dynamic changes in financial statements at the level of companies.

This book presents an analysis of the half-yearly financial statements for the period 2019-2020, making comparisons before and during the pandemic. It is structured as follows: *Chapter I* captures the presentation of the financial statements in context of fields of activity, *Chapter II* presents the monograph for big companies, and *Chapter III*, captures our conclusions.

All financial data were manually collected by the authors from Bucharest Stock Exchange website.

This book provides a financial analysis for the big companies, and the authors invite readers to check the second part of this book, regarding the small companies, for a complete image of the Romanian market.

Our book is addressed to the following interested parties:

- Competitors;
- Customers;
- Employees;
- Government and Government Agencies;
- Investment Analysts;
- Investors;
- Lenders;
- Corporate governance of the companies.

About authors

Monica Violeta ACHIM is professor and doctoral supervisor in the field of Finance at the Faculty of Economic Sciences and Business Administration, Babeş-Bolyai University, Cluj-Napoca. With over 22 years of experience in academia, she has published as author and co-author, over 140 scientific articles and 25 books. Her most recent reference work is the book *Economic and financial crime. Corruption, Shadow economy and Money laundering*, co-authored by international publishing house Springer. In 2020 she obtained the Award for Excellence in Scientific Research, at Babeş-Bolyai University, Faculty of Economics and Business Administration, Cluj-Napoca, Romania, as a recognition of the results obtained in the research activity. In the business environment, she works in liberal professions as accountant expert, tax consultant and judicial expert, from this perspective being involved in solving many cases of economic and financial crime of the Palace of Justice, Cluj-Napoca.

Gabriela Mihaela MUREŞAN holds a PhD in Finance and currently works as a Lecturer at the Department of Finance, Faculty of Economics and Business Administration Babeş-Bolyai University, Cluj-Napoca. She has published more than 20 research papers, 2 international books and attended several international conferences. Her research interests are broadly focused in the field of insurance, financial analysis and economic psychology. She is especially interested in human behavior, manipulation, money addiction, culture, happiness, ethics, corruption, fraud, corporate performance, bankruptcy and creative accounting.

Ioana Lavinia SAFTA has a degree in economics, with a master's degree in Audit and Control Accounting Management, she is currently PhD student in the second year in Finance field, with a topic of interest for economics "The relationship between creative accounting and fraud, models for detecting the risk of fraud at the level of economic entities". She worked as an assistant professor at the Department of Finance, Faculty of Economics and Business Administration , Babeş Bolyai University from Cluj-Napoca. She gained over 3 years of experience in accounting, working as an accountant in a financial expertise and audit firm. She is the author / co-author in scientific articles for her studies area. Her research interests are focused on finance and accounting. Lately, she has given special attention on issues related to economic and financial crime.

CHAPTER I. BRIEF FINANCIAL ANALYSIS ON THE ROMANIAN MARKET

Great things are done by a series of small things brought together.

Vincent Van Gogh

Our sample consists of 217 companies that activate on the Romanian market and are listed on the Bucharest Stock Exchange (BSE) for the period June 30 2019 (2019-S1) -June 30 2020 (2020-S1).

The companies in our sample are divided into the following categories: Big and Small.

Big entities content 75 Medium-sized entities and 36 Large entities who submit their balance sheet in Bucharest (according to international standards)—a total of **111 big entities**. Medium and large entities (grouped here and titled as Big companies) are those companies that, at the balance sheet date, exceed the limits of at least two of the following three criteria:

- a) total assets: 4,000,000 Euro
- b) net turnover: 8,000,000 Euro
- c) the average number of employees during the financial year is 50

Small entities content 36 Micro-entities and 70 Small entities—a total of **106 small entities**.

Micro-entities are entities that, at the balance sheet date, do not exceed the limits of at least two of the following three criteria:

- a) total assets: EUR 350,000;
- b) net turnover: EUR 700,000;
- c) the average number of employees during the financial year: 10.

Small entities are entities that, at the balance sheet date, do not fall into the category of micro-entities and that do not exceed the limits of at least two of the following three criteria:

- a) total assets: EUR 4,000,000;
- b) net turnover: EUR 8,000,000;
- c) the average number of employees during the financial year: 50.

These companies are divided into 2 categories (small and big) as also divide into activity sector as follows:

- *Agriculture* (4 entities),
- *Commerce* (12 entities),
- *Constructions* (16 entities),
- *Extractive* (3 entities),
- *Tourism* (including Hotels and Restaurants) (14 entities),
- *IT* (including together IT and R&D) (9 entities),
- *Manufacturing* (81 entities, that specifically include: 8 *Foods* (Manufacturing-foods entities), 6 *Pharma* (Manufacturing-pharmaceutics entities), 7 *Textiles* (Manufacturing-textiles entities) and the 60 remaining meaning other Manufacturing entities except for the previously mentioned ones (labelled *Manufacturing**),
- *Other* (Other services) (2 entities),
- *Real estate* (43 entities),
- *Transport* (including Transport and storage) (13 entities).

The distribution of companies by counties can be seen on the map below:

Tables 1a., 1b., 2a. and 2b. summarize all areas of activity analyzed before the COVID pandemic and during the COVID pandemic. In terms of sales and net results in all areas of activity there are major decreases, but there are also areas of activity that record good financial results during the COVID pandemic such as food and textiles (significant increases in mid-2020 compared to mid-2019). Overall, significant changes can occur in each sector, these changes are directly influenced by the occurrence of the pandemic.

We note that the total sales of the manufacturing sectors decreased -843375262.1 lei by the middle of 2020 compared to the middle of 2019. However, we want mention that the small companies have had an average increase in sales of 25.59% compared to a 14.75% decrease in sales registered by the big companies. We can observe that small companies are more adaptable to the crisis.

CHAPTER II. BRIEF FINANCIAL ANALYSIS ON BIG COMPANIES

This chapter presents a brief financial analysis for a number of 111 big Romanian companies, which prepared their financial statement according to the Accounting Regulations approved by the Order of the Minister of Public Finance no. 1.802 / 2014. Medium and large entities (grouped here and titled as Big companies) are those companies that, at the balance sheet date, exceed the limits of at least two of the following three criteria:

- a) total assets: 4,000,000 Euro
- b) net turnover: 8,000,000 Euro
- c) the average number of employees during the financial year is 50

These Big entities have to include in their annual financial statements the followings:

1. Balance sheet
2. Profit and loss account
3. Statement of changes in equity;
4. Statement of cash flows;
5. Explanatory notes on the annual financial statements.

AMPLO SA

In 2019-S1, the total assets were 16367750 lei higher than the 14154975 lei in 2020-S1, and the negative working capital (-1147129 lei 2019-S1, -3222733 lei 2020-S1) indicates that this company can not fund its current operations. The net profit margin measure was only -82.13 %, in 2020-S1.

In 2019-S1 net sales were 1242939 lei, but in 2020-S1 1240759 lei, with a decrease by 0.18%. Value of expenditures related to personnel including wages, benefits, and training, and payroll taxes incurred by the company AMPLO SA during the reporting period (2019-S1 1818672 lei, 2020-S1 644769 lei), decreased by 64.55%.

Moreover, in 2020-S1 the current assets were lower than the short-term liabilities, and the permanent capital (total assets less current liabilities) lowered the fixed assets, which shows that the company does not comply with the principle of aligning the maturity of the assets and liabilities.

MECANICA FINA SA

In 2019-S1, the total assets were 184803368 lei lower than the 203122617 lei in 2020-S1, and the negative working capital (2047033 lei 2019-S1, -156385 lei 2020-S1) indicates that this company can not fund its current operations and not invest in future activities. The net profit margin measure was only 2.53 %, in 2020-S1.

In 2019-S1 net sales were 3193496 lei, but in 2020-S1 3894602 lei, with an increase by 21.95%. Value of expenditures related to personnel including wages, benefits, and training, and payroll taxes incurred by the company MECANICA FINA SA during the reporting period (2019-S1 574696 lei, 2020-S1 636079 lei), increased by 10.68%.

Moreover, in 2020-S1 the current assets were lower than the short-term liabilities, and the permanent capital (total assets less current liabilities) lowered the fixed assets, which shows that the company does not comply with the principle of aligning the maturity of the assets and liabilities.

PROSPECTIUNI SA

In 2019-S1, the total assets were 275310175 lei higher than the 219563940 lei in 2020-S1, and the positive working capital (18797507 lei 2019-S1, 14899915 lei 2020-S1) indicates that this company can fund its current operations and invest in future activities and growth. The net profit margin faces a high value of 12.91 %, in 2020-S1, from a negative value of -77.5% in 2019-S1.

In 2019-S1 net sales were 46551642 lei, but in 2020-S1 108960756 lei, with an increase by 134%. Value of expenditures related to personnel including wages, benefits, and training, and payroll taxes incurred by the company PROSPECTIUNI SA during the reporting period (2019-S1 20132012 lei, 2020-S1 30203954 lei), increased by 50%.

Moreover, in 2020-S1, the current assets were higher than the short-term liabilities, and the permanent capital (total assets less current liabilities) exceeded the fixed assets, which shows that the company complies with the principle of aligning the maturity of the assets and liabilities.

TUSNAD SA

In 2019-S1, the total assets were 30906147 lei higher than the 29887638 lei in 2020-S1, and the positive working capital (1308760 lei 2019-S1, 2097604 lei 2020-S1) indicates that this company can fund its current operations and invest in future activities and growth. The net profit margin measure was only -126.74 %, in 2020-S1.

In 2019-S1 net sales were 5678832 lei, but in 2020-S1 1469813 lei, with a decrease by 74.12%. Value of expenditures related to personnel including wages, benefits, and training, and payroll taxes incurred by the company TUSNAD SA during the reporting period (2019-S1 2169695 lei, 2020-S1 998313 lei), decreased by 54%.

Moreover, in 2020-S1, the current assets were higher than the short-term liabilities, and the permanent capital (total assets less current liabilities) exceeded the fixed assets, which shows that the company complies with the principle of aligning the maturity of the assets and liabilities.

UZUC SA

In 2019-S1, the total assets were 144654044 lei higher than the 118242272 lei in 2020-S1, and the positive working capital (10363173 lei 2019-S1, 3253425 lei 2020-S1) indicates that this company can fund its current operations and invest in future activities and growth. The net profit margin measure was only -138.35 %, in 2020-S1.

In 2019-S1 net sales were 12568838 lei, but in 2020-S1 11494113 lei, with a decrease by 8.55%. Value of expenditures related to personnel including wages, benefits, and training, and payroll taxes incurred by the company UZUC SA during the reporting period (2019-S1 7667505 lei, 2020-S1 4497613 lei), decreased by 41.34%.

Moreover, in 2020-S1, the current assets were higher than the short-term liabilities, and the permanent capital (total assets less current liabilities) exceeded the fixed assets, which shows that the company complies with the principle of aligning the maturity of the assets and liabilities.

III. CONCLUSIONS

This book can be seen as a financial monograph and is useful for various users. Our sample consists of large companies that operate on the Romanian market and are listed on the Bucharest Stock Exchange (BSE) for the period June 30 2019 (2019-Q1) - June 30 2020 (2020-Q1). In addition to its impact on world health, coronavirus pandemic (COVID-19) has caused a major financial shock. In this book, we explore the impact of COVID-19 on the big business landscape in Romania. To explore, we collected 'hand' (manually) the financial statements of the listed companies and we hope that no human errors have crept in.

Overall, our results suggest that big companies have had a decrease in sales or net results. Among companies engaged in food and textiles, the biggest increases occurred in the middle of 2020 compared to the middle of 2019. In contrast, big companies involved in agriculture, IT R&D, commerce, and extractive industries are the most affected in terms of decreases in both their sales and net profits.

Also, we observe that big companies are less adaptable to the crisis compared to small companies.

Even if some categories of companies are difficult to classify in an industry or sectors, in the end, in Appendix 2 you can find the sectoral averages. Thus, we don't claim to have cracked the code CAEN on this one, but we have tried our best.

Management of the Company, employees, government, investors, and other beneficiaries need to know how companies respond to financial shock pandemic produced by a pandemic.

Appendix 1. Description of financial indicators

FINANCIAL RATIOS (%)		
Variables	Description	Sources
Fixed assets/Total assets	It is a type of structure ratio which is found by dividing total fixed assets of a company with its total assets.	Bucharest Stock Exchange
Financial autonomy rate	It is called financial independence calculated by dividing the Shareholder's equity to total liabilities and Shareholders' equity.	Bucharest Stock Exchange
Debt to equity ratio	It is also called Risk ratio and it is a measure of the weight of total debt and financial liabilities against total Shareholders' equity.	Bucharest Stock Exchange
The rate-term financial autonomy	It refers to the degree of solvency of the company by comparing equity capital and total of liabilities.	Bucharest Stock Exchange
Current Liquidity	It is the ratio between a company's current assets and its current liabilities. Also, is a measure of a company's liquidity.	Bucharest Stock Exchange
Acid Test	It is a liquidity ratio that measures how sufficient a company's short-term assets are to cover its current liabilities.	Bucharest Stock Exchange
Cash Ratio	It is a liquidity rate that shows a company's ability to cover its short-term obligations using only cash and cash equivalents.	Bucharest Stock Exchange
Net working capital to total asset	It is the percentage of working capital to company total assets. It represents how strong	Bucharest Stock Exchange

	the company's financial health regarding the liquidation.	
Net profit margin	It measures how much net income or profit is generated as a percentage of revenue.	Bucharest Stock Exchange
ROE	<i>Return on Equity</i> -is a measure of financial performance which is calculated by dividing the net income to total Shareholder's equity.	Bucharest Stock Exchange
ROA	<i>Return on Assets</i> -is a measure of economic performance which is calculated by dividing the net income to total assets.	Bucharest Stock Exchange
